

## EcoVision III (2006-2009)

Improvements	Targets
Product improvements	
Yearly target set on number of Green Flagships: 2006	35
Process improvements*	
Global Warming Potential (CO <sub>2</sub> equivalents)	
Energy reduction (direct CO <sub>2</sub> )	5%
PFC reduction	31%
Other greenhouse gas reductions	4%
Water	7%
Total waste	7%
Restricted substances: benzene emissions	100%
Restricted substances: mercury emissions	83%
Restricted substances: CFCs/HCFCs	94%
Other restricted substances (excluding CFCs from cooling systems)	100%
Hazardous substances: PFC emissions	31%
Hazardous substances: lead	100%
Hazardous substances: toluene	100%
Hazardous substances: xylene	100%
Other hazardous substances	100%

\* Total reduction targets in absolute terms, against the base year 2005
